

5 litre pack Item code: 02-504E
3 x 5 litres per carton
48 x 3 x 5 litres per pallet (720 litres)

25 litre canister Item code: 02-505E
24 x 25 litres per pallet (600 litres)

Perform Dustbinder 1 is an transparent water-based floor treatment agent (sealer), which is designed primarily as a protective agent for concrete floors, but also for other porous floors and surfaces of with bricks, slate, terrazzo etc. Perform Dustbinder 1 protects against dustiness, wear and soiling. It penetrates into the surface layer and provides, after it hardened, a silky smooth and cleanable surface.

Surface will be dry after approx. 60 minutes, can withstand light traffic after 24 hours and heavy traffic after 72 hours. Covering about 20 -30 m² per litre for one layer.

Floors with underfloor heating must the heating be turned off at least 24 hours prior to application and be off 24 hours after treatment. Newly cast concrete must cure at least 30 days before it can be treated. Cement skin should be removed. Flat and polished surfaces must be cleaned with an appropriate cleaning machine and cleaning agent to remove dirt and oil residues before application.

pH in concentrate ~ 7.0 Store frost-free.

How to use:

Dilute 1:1 with water when doing the first treatment and in concentrate for the second treatment. Apply with a roller or a squeegee.
