 3 x 5 litres per carton  
 48 x 3 x 5 litres per pallet (720 litres)

25 litre canister Item code: 02-203E  
 24 x 25 litres per pallet (600 litres)

Perform Hulk Floor Cleaner is an all-purpose cleaner that combines high cleaning ability with mild treatment. Perform Hulk Floor Cleaner is suitable for all types of cleaning, from daily cleaning to heavy duty cleaning. Perform Hulk Floor Cleaner effectively dissolves water-soluble dirt and stains of mineral and synthetic oil, soot and grease. Perform Hulk Floor Cleaner is pH-buffered, meaning that it retains its pH value although the dirty wash water should lower the pH. It makes Perform Hulk Floor Cleaner more efficient and more cost effective because the correct pH is an important factor in the washing process. Perform Hulk Floor Cleaner is suitable for all water resistant floors and surfaces.

Perform Hulk Floor Cleaner picks up the dirt from the surfaces pores. If you have problems with foaming when using an auto-scrubber, just put 1-2 cups of Perform Anti-foam in the waste water tank. For spot cleaning, rinse the surface with water after treatment. Perform Hulk Floor Cleaner is a member of the Perform Floor-Recond System.

Example:

New stone surfaces, concrete and linoleum floors etc. Cleaning after construction, with Perform Hulk Floor Cleaner according to the dosage for daily cleaning - Let the floor dry completely and protect with Perform Stone Gloss or Perform Stone Soap Special - The Original according to the label on the product.

Older stone, concrete and linoleum flooring etc. Apply Perform Hulk Floor Cleaner according the dosage for heavy duty cleaning use an auto-scrubber or a singledisc-scrubber and a suitable scouring pad or brush. Rinse the floor with clean water and let the floor dry completely and protect with Perform Stone Gloss or Perform Stone Soap Special - The Original according to the label on the product.
