

5 kg pack Item code: 20-1001E

25 kg pack Item code: 20-1003E

Perform Polishing Powder Green is a highly concentrated polishing paste for restoration of worn marble, terrazzo, limestone and agglomerate marble. **Perform Polishing Powder Green** is ideal for maintenance on polished floors and restore the original beauty of the stone.

Perform Polishing Powder Green is especially suitable for hard marble such as black and green marble. The lustre achieved with **Perform Polishing Powder Green** also provides some resistance to dirt and water.

With a larger driveable auto scrubber an operating speed of up to 100 m² / hour could be achieved. Coverage may vary but the average is about 20-30 m² / kg. A major advantage with **Perform Polishing Powder Green** is that you can use a single-disc machine (150 rpm) with a red pad. If the surface has deeper scratches it may have to be diamond grinded before treatment, if you don't have the knowledge how to do this just contact your local stone care professional.

Perform Polishing Powder Green is a member of the **Perform Floor-Recond System**.

MSDS is available for professional users on our website: www.ajourtrading.com or scan QR-code. This product is manufactured in Sweden according to ISO 9001 and ISO 14001.

How to use **Perform Polishing Powder Green** :

1. Clean the stone from all traces of wax, soap and acrylic polish. Use **Perform Deep Stone Cleaner** and scouring pad. If there is acrylic polish residue on the stone use **Perform Polish Remover**.
2. Rinse with water and wet vacuum the surface.
3. Moistening the floor with water. Spread 3-4 dl of powder over an area of about 6-8 m².
NOTE! **Perform Polishing Powder Green** is distributed directly over the floor, not in the water tank.
4. Processing surface with single-disc machine (150 rpm) with red scouring pad with repeated sideway movements. Remove the paste with the squeegee and verify that the finish is satisfactory. If not - repeat the procedure. You can also use an auto scrubber with red scouring pads.
5. Rinse with water and wet vacuum and mop the surface with clean water. If there is etch marks on the floor just take a little **Perform Polishing Powder Green** on that area and repeat the treatment to eliminate the marks.
6. The floor is now ready to be used.
7. The maintenance should be done with **Perform Stone Soap Special - The Original** and **Perform Hulk Floor Cleaner**.
